August 2009

Dear Hall Families,

I wanted to take the time to inform every one of the traffic rules and clarify our expectations of those who are dropping off and picking up children in the mornings and afternoons. I cannot emphasize enough that the safety of our students is our number one priority at Hall School.

Traffic rules are as follow:

HEATHER DRIVE

- No parking on the South side of Heather Drive -- Students should not cross Heather Drive to enter a car parked on the South side of the street. You may park on the North side of Heather Drive, between the circle drive and Laurel.
- Only buses and daycare vans are permitted to use the cut-out area for drop-off and pick-up.
- In practice we need Heather Drive traffic to be **ONE WAY** going Westbound. Drivers need to turn right upon exiting the circle drive.
- Remember to be courteous to our Heather Drive neighbors. Do not park in front of driveways or pull into homeowner's driveway to turn around.
- No U-turns are allowed on Heather Drive.

CIRCLE DRIVE

- No double parking; please stay safely along the right curb as you move through the circle drive.
- Please stay in your lane and do not pull out or pass cars at the circle drive curb in the morning. At dismissal, you may carefully pull out and pass those cars still waiting to locate their children.
- Always pull completely forward before stopping to let your child exit. The leading cars should pull all the way to the fence near the circle drive exit onto Heather Drive. Do not get out of your car while in the circle drive. We must keep the line of cars moving safely forward in order to accommodate all of the students who are being dropped off. Your child should be prepared to exit your car quickly and safely when you are fully stopped. A brief "Good-bye" should have you on your way.
- Once your child has gotten out of your vehicle safely, please be sure to move your car so that the flow of traffic can continue.
- No parking by any yellow painted curbs; no parking in areas posted "No Parking." *Sitting in your running car in a No Parking area is the same as parking.*
- Please drive slowly and cautiously at all times.
- Students should enter and exit vehicles on the right hand side of the car and should always WALK while on school walkways.
- Please be observant...watch the other cars, watch pedestrians, and make sure you look for children in crosswalks.
- Please remind your child where you will be picking them up after school and encourage them to meet you as promptly as possible after dismissal.
- If you do need to park because you have business inside the school, you may park on the North side of Heather Drive between the circle drive and Laurel. You may also park on the West side of Laurel.

I ask again for your assistance in helping to resolve our parking issues by obeying all traffic and parking rules. We have seen great improvement toward achieving our primary goal of ensuring that all students arrive at school in a safe and timely fashion. If everyone follows the rules relating to parking and dropping off/picking up their children, our traffic situation will continue to improve to everyone's benefit!

Thank you for your continued cooperation. I will keep you informed as new information develops, and as always, should you have any further questions or concerns, please do not hesitate to contact me.

Kind Regards,

Lisa Polomsky
