

# SUPERINTENDENT'S COMMUNITY ADVISORY COUNCIL

## June Meeting Recap

### **Pictures:**

The meeting began with new photographs being taken of all SCAC Reps.

### **Recognition:**

Al Rhea, Board of Education President, began the meeting by thanking all Representatives, incoming and outgoing, for all they do for District 129. Al shared his feelings about the importance of the SCAC and for the Representatives volunteering their time. Al then presented the outgoing Representatives with a certificate on behalf of the District. The incoming Representatives were also introduced.

### **“Housekeeping” Items:**

Chrissy Poppen introduced herself as the District liaison for the SCAC. She explained the forms that were included in their background information, (which included the 08-09 list of Representatives and meeting dates). She also explained that the headshots that had been taken would be used for District ID cards and that business cards would be distributed at the September meeting.

### **Technology Presentation:**

Vickie Nissen and Stacy Behmer were present to update the SCAC Representatives on the status of the District's technology capabilities. Vickie also introduced two gentlemen from Netrix who were present to answer questions. Vickie did an excellent job explaining the Technology Integration Plan, as well as the E-Rate process. She also shared details about the plans for fiber installation and the project timeline for improvements in the internal infrastructure. The Representatives had many questions and positive comments for the Technology “team”. Dr. Rydland also shared thoughts on what these technology improvements mean to District 129 and to student learning.

Representatives were then asked to take time to fill out the feedback sheet on technology. (Due to summer break, the feedback was collected at this meeting instead of waiting until the fall).

**Next Meeting Date: Monday, September 22<sup>nd</sup> at 7:00 p.m.  
B140, West High School**
